**Subject:** LPCA offers Supervisors Credentialing

Dear Trudy.

Its official. The Certification process has started for LPC Supervisors.

A rigorous process to become a **Certified Professional Counselors Supervisor (CPCS)**

We would like to make the announcement to all Play Therapists. We are trying to notify as many Mental Health professional about the certification.

Can you tell me the best process to notify the members of GAPT ?

Thanks, Gale

***Purposes of the CPCS Credential:***

- Qualify Licensed Professional Counselors who have met professional supervision standards
- Promote the professional identity, visibility, and accountability of Counselors supervisors
- Encourage the professional growth of Counselors supervisors
- To broaden the applicant base for the Approved Certificated Professional Counselors Supervisor as the need increases.
- Allow applicants across related disciplines that have the required coursework and experience to obtain the credentials.

Gale Macke
